WELCOME, I'M LUDIVINE PÉCUSSEAU

PASSIONATE FLORIST

It was at the age of 8 that my passion for plants blossomed during a floral art workshop. I chose to train myself through an apprenticeship in 4 years by acquiring all the know-how and knowledge necessary to obtain the CAP and BP florist.

BEST APPRENTICE OF FRANCE

Ambitious by nature, I like to challenge myself and try my hand at my first competition in 2009, winning the national gold medal as the best apprentice in France. In 2013, I won the Young Florist Oscar and in 2017, the Interflora Hope Cup.

ROMANTIQUE BUSINESSWOMAN

Rich in my 10 years of experience across France, it was in the Bordeaux region that I decided to create LP Floral Designer in 2018. An event floral workshop specializing in weddings, a universe that allows me to express beautiful emotions through my passion.

Because each event is unique, it must be designed in your image and according to your desires to make you live a unique and unforgettable experience.

Floral decoration plays an essential role. It brings a touch of freshness, naturalness and elegance to your reception. Depending on the choice of flowers, colors, volumes and textures, you will be transported to different universes.

We receive you, in all simplicity, in our showroom workshop near Bordeaux to design your floral project.

WEDDING

Our favorite event...

Another passion drives us every day, that of weddings. We are happy to be able to bring our know-how to make one of the most beautiful days of your life "florally" unforgettable. This unique and emotional day when two souls will unite for life with their friends and families.

CORTEGE

Floral creations made with finesse...

The main element of the procession is the bride's bouquet. It should reflect your image and reflect your personality. It will be designed in accordance with your wedding dress in order to create harmony so that each element is revealed and makes you shine in the eyes of your husband and your guests.
